

LoRa Connected Bait Box

LoRa Connected Bait Box

Connected Bait features revolutionary sensors that monitor bait consumption. This ensures accurate reporting and provides technicians with better data for real-time monitoring. .

CHARACTERISTICS:

- Designed for high rodent interaction
- Mounting holes provide option to secure in-place
- Monitors bait consumption – receive notifications when bait is depleted
- Supports all bait types – ideal for non-toxic baiting methods
- 24/7 monitoring – manage bait box from anywhere with the app and online portal
- LED indicator light lets you know when the bait box is connected to the network

APPLICATIONS:

- Food manufacturers
- Retail
- Education
- Pharmaceuticals
- Hospitality
- Multifamily
- Government
- Facilities Operators
